

Go to [www.nhsaves.com](http://www.nhsaves.com) Under “for your home”

### Getting Started

In order to continue, you will need:

- 12 months of heating bills or a 12 month summary statement of your heating usage.
- The square footage of your home.

#### Step 1: Your Home

What is your zip code?  ←

What is the **conditioned square footage** of your home?  ←

#### Step 2: Your Energy Use

Enter the amount of **fuel used to heat your home** for 12 months. If you use more than one fuel enter each of their values. **Maximum 2**. If you use the same fuel for heat and hot water, estimate the amount used for heating only.

Fuel Type	Your Annual Usage
Electricity	<input type="text"/> kWh (Only if used for heating)
Natural Gas	<input type="text"/> Therms
Propane	<input type="text"/> Gallons
Heating Oil	<input type="text"/> Gallons ←
Kerosene	<input type="text"/> Gallons
Wood	<input type="text"/> Full Cords
Wood Pellets	<input type="text"/> Tons
Coal	<input type="text"/> Tons

### Home Heating Index Results

The home heating index compares your home heating consumption against other energy efficient homes. Scores can be between 0 to 15+ with 0 being the most energy efficient.

#### Your Home Heating Index: 11

Your home may be a good candidate for weatherization services.

Legend	
0 - 3	Zero Energy Home
4 - 6	Energy Efficient Home
7 - 8	Code Compliant Home
9 - 15	Room for Improvement
15+	Inefficient Home

About Your Home	
Town	Alton, 03810
Square Footage	1,725
	<a href="#">Edit Values</a>

Fuel Types	
Heating Oil	

Energy Use	
Heating Oil	1050 Gallons
Total All Sources:	84,609 BTUs/SF

#### Get a Home Energy Audit - 2 Easy Steps!

1. Complete and print an [enrollment form](#).
2. Obtain 2 years of heating fuel bills. Send copies of bills with completed enrollment form to the address at the bottom of the enrollment form.
